I didn't do this all by myself. Thanks to:–

Lois Bujold for a great series of stories.

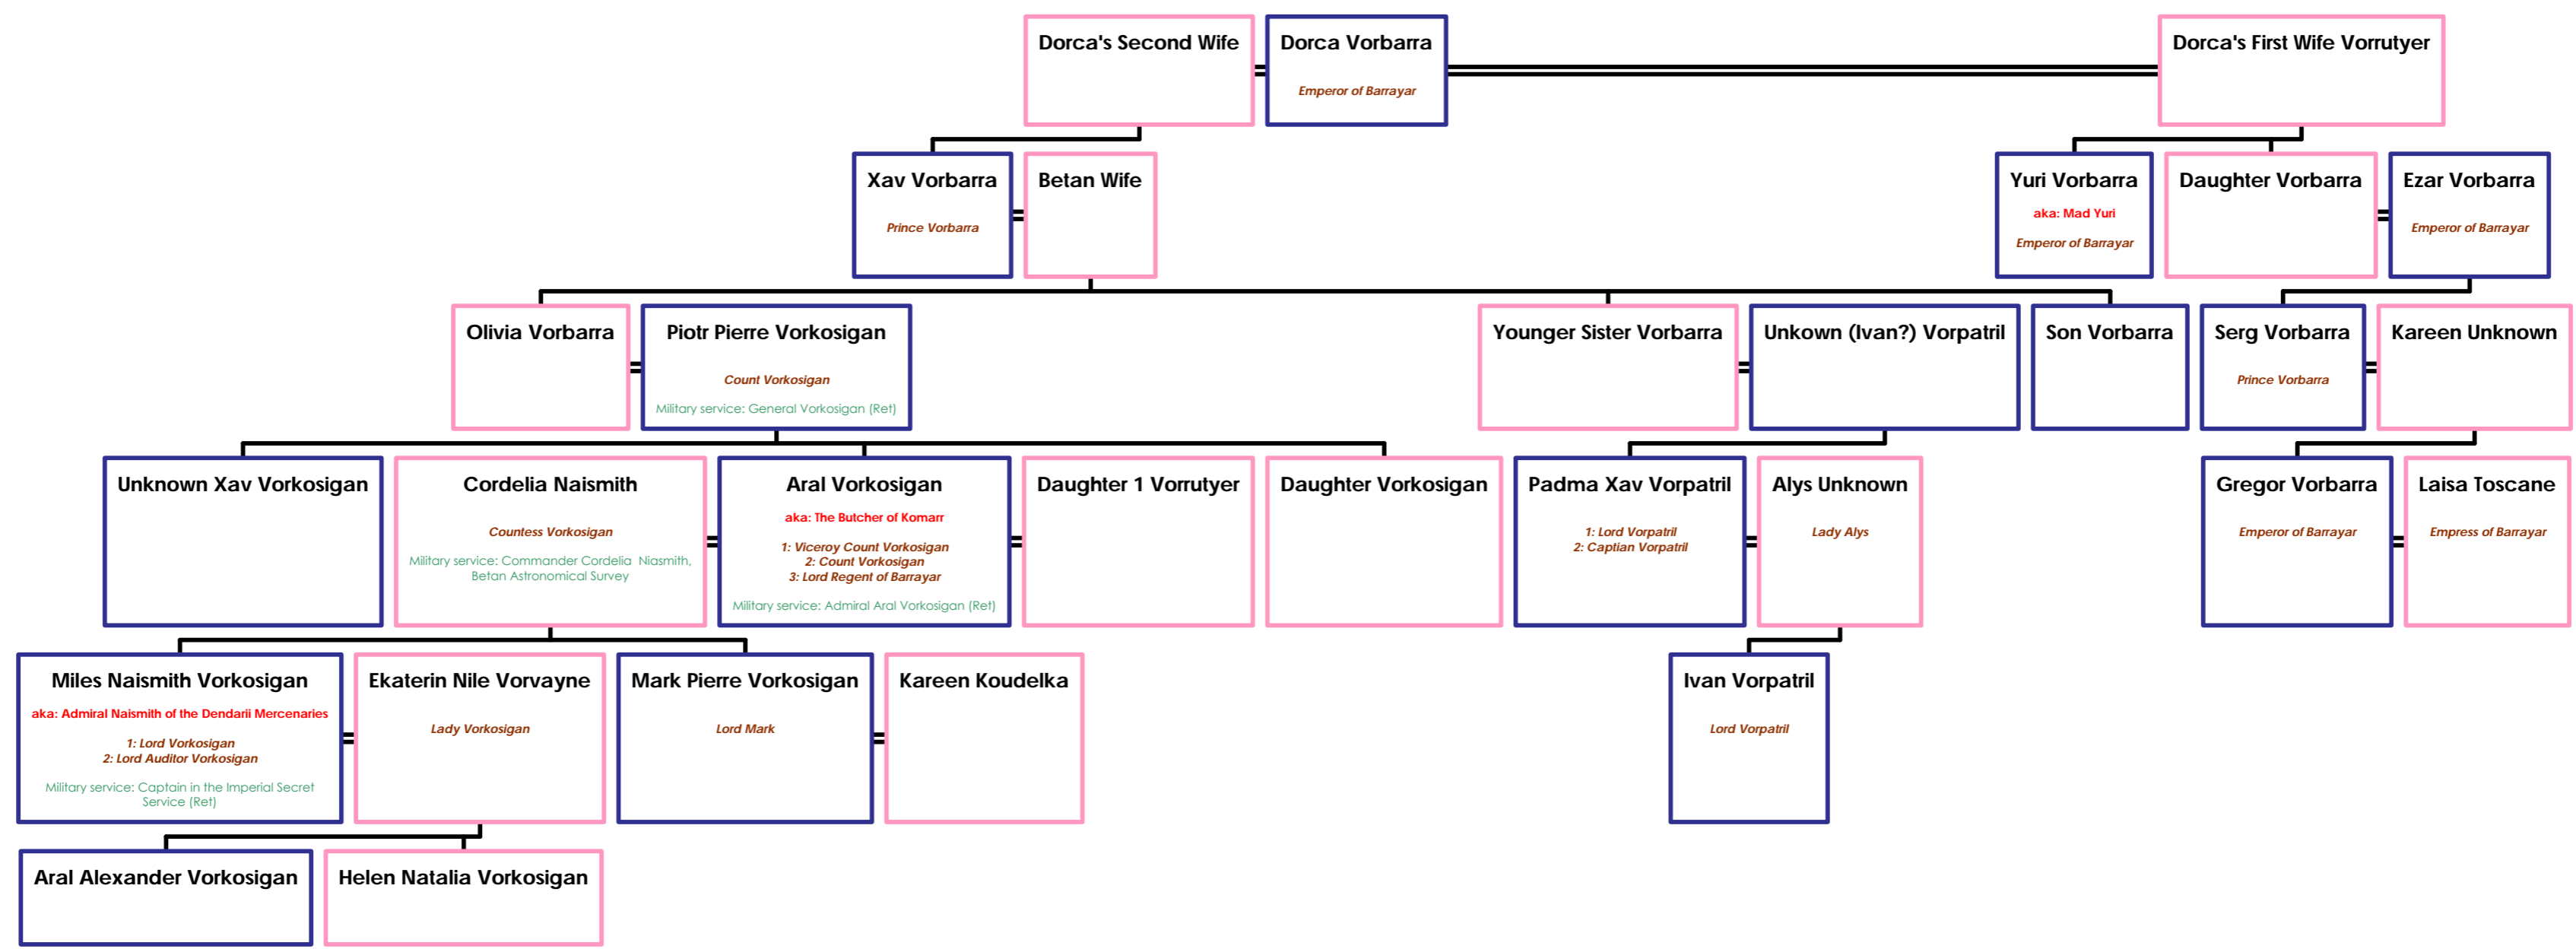

Katie Schwarz for helping make it a little more correct.

Naming Conventions

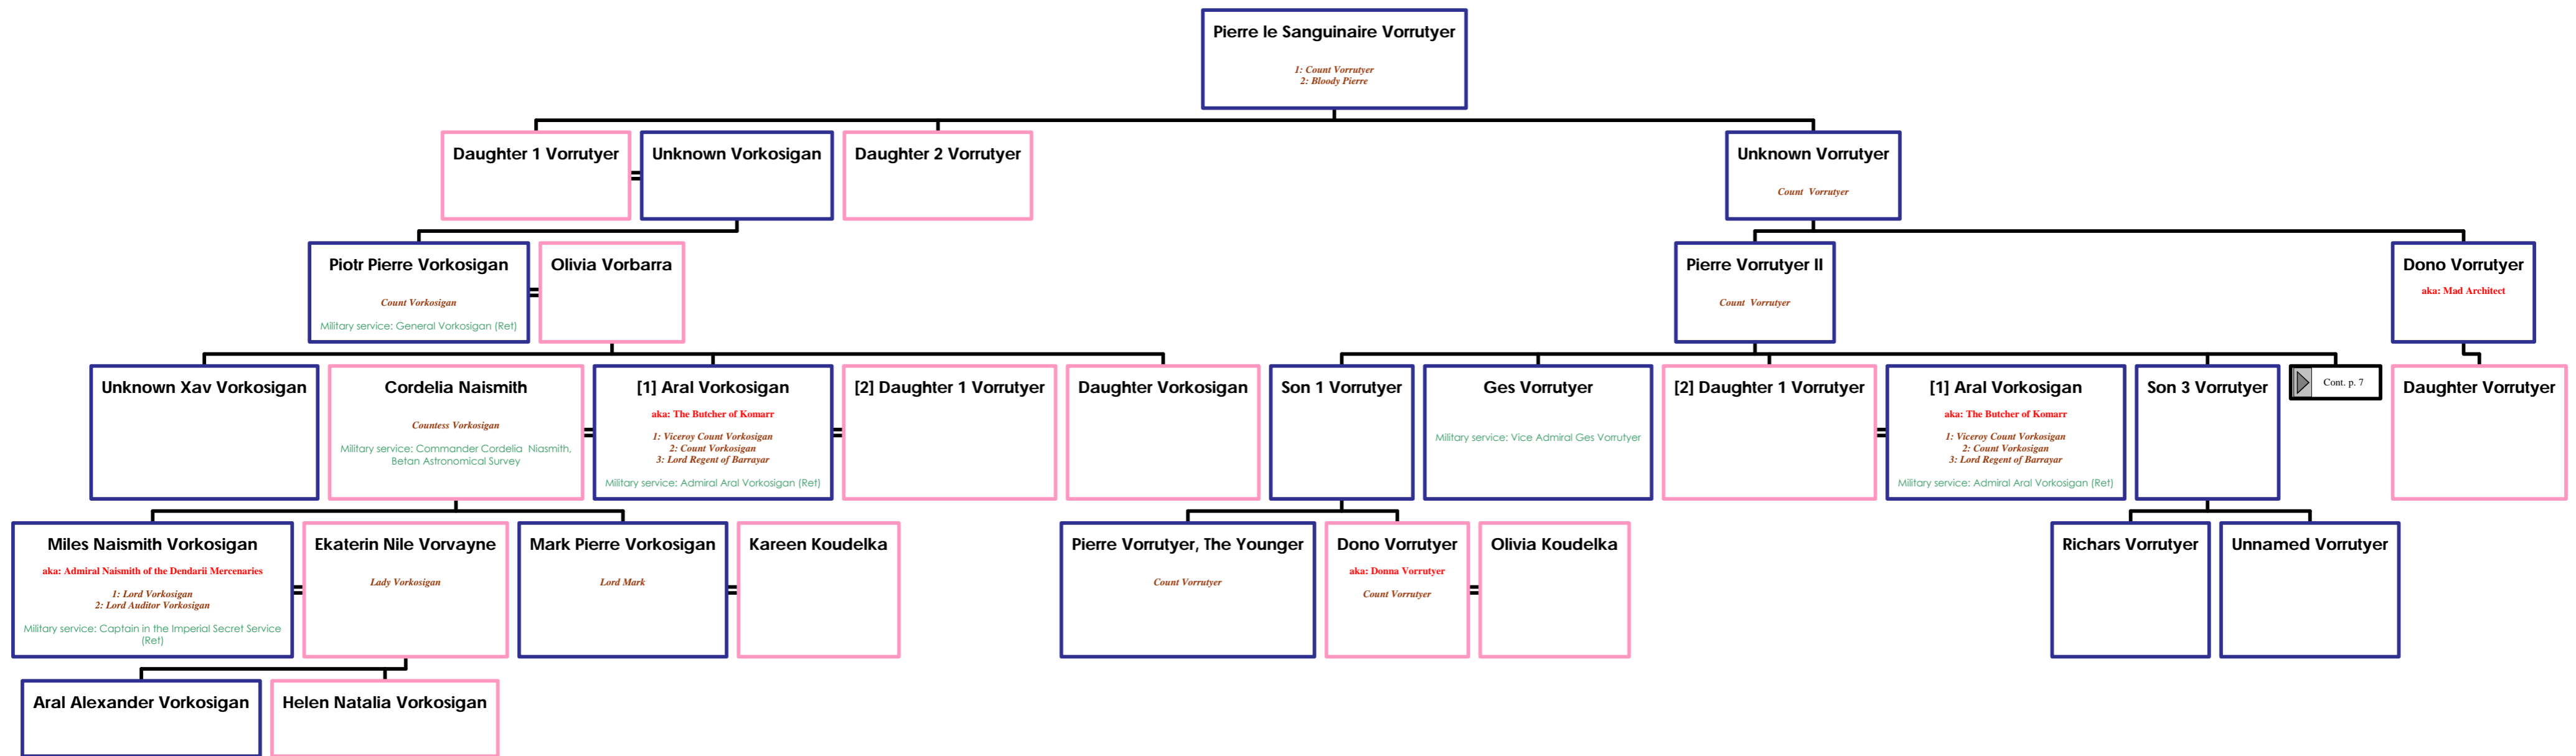

Lois has mention on the list (lois-bujold@herald.co.uk) that the Vor tend to use the following naming patern for thier children - the Paternal Grandfather's first name becomes the childs first name, and the 2nd name is the Maternal Grandfather's first name. Lios also said that while it is a common practice it is not a universal customor law. This simplifies things somewhat when compiling the Genealogy but unless it is mention in the books, it shouldn't be in this Genealogy.
